

Product Specification and Technical Data

PRODUCT: BG Motorcycle Chain Lube

PART NO.: 495

TEST DATA: Test	ASTM Test Method	Typical Test Results
API Gravity @ 15.6°C (60°F)	D 287	30.7
Specific Gravity @ 15.6°C (60°F).	D 1298	0.8726
Density, U.S. lbs./gal. @ 15.6°C (60°F).	D 1250	7.275
Flash Point, COC	D 92	230°C (446°F)
Viscosity, cSt @ 100°C (212°F)	D 445	8.00
Viscosity, cSt @ 40°C (104°F).	D 445	51.86
Viscosity Index	D 2270130
Pour Point	D 97	-15°C (5°F)
Color	Visual.	Blue/Green

DESCRIPTION: BG Motorcycle Chain Lube was developed specifically for high-speed roller chain lubrication. It foams on — no messy overspray — and is highly adhesive to metal surfaces. Contains Moly for added lubrication. Contains excellent anti-oxidant ingredients for additional protection. Resistant to water washout. BG Motorcycle Chain Lube will not cause deterioration of chain components. Recommended for chains, slides and all applications where an adhesive oil lubricant is required.

This product is available in aerosol and liquid form.

USAGE: SHAKE WELL before using. Use extension to apply lubricant to exact area to be lubricated. Apply sparingly. Apply lubricant to the inside of the chain, making sure to lubricate each chain roller. For best results, clean chain before applying BG Motorcycle Chain Lube.

BG Products, Inc. accepts no liability for excessive use or misuse of this product.
